This report describes and locates 99 Chinese Communist airfields that were covered by large-scale aerial photography during [redacted] Many of them were covered more than once. Most of this photography is classified SECRET NOFORN [redacted] but some airfields included in this report are covered only by TALENT photography.

Airfields are divided into two categories: (1) operational airfields and (2) abandoned airfields. They are listed alphabetically, located by geographic coordinates, and the runway dimensions and surface noted. Also given are the dates of photo coverage and a description of the aircraft present on each date. Locations of the airfields are shown on the accompanying map.
